Ronja Holder Melanie Holder Oelbaum
Great-Grandmother Grandmother
Place: Vienna, Austria
Year: About 1940

“A Letter To The Stars is a noble and idealistic **dream** of a group of people who believe that **the holocaust** – the murder of 6 million Jews, the shame of the 20th century – **must never happen again.**

I **hope and pray** that speaking to students whose grandparents may have been part of this horror will make a difference.

The personal experience of meeting people like me, people whose families were murdered only because they were Jews will hopefully **create a realistic understanding** in the minds of the young men and women of **what really happened after the Anschluß** to the entire Jewish community of Austria.”

A LETTER TO THE STARS
